

Easy. Reliable. Secure.

Empowering modern business.

Screens simulated, subject to change. Windows Store apps sold separately. App availability and experience may vary by market. App availability and experience varies by device and market. Office 365 subscription required for some features.

Acer for Business develops easy, reliable and secure products that meet the needs of the modern business, from Home Offices and Small and Medium-sized Businesses all the way up to Medium Enterprises.

But above all, Acer focuses on vertical markets and solutions from the Education sector to Digital Signage, knowing that its product portfolio perfectly meets the needs of several other vertical markets such as Healthcare, Transportation, Retail and Hospitality.

Easy.

We are committed to ensuring our devices are easy to use, manage and deploy. Our complete product portfolio and efficient customer service and support infrastructure allow businesses the freedom to focus on turning ideas into opportunities and enable them to reach new levels of productivity.

Reliable.

Our products are built to last and remain up-to-date, incorporating innovative design features created to withstand the wear and tear of everyday use. All Acer for Business products are thoroughly checked and tested to ensure reliable performance, even under extreme conditions. We utilize stringent and proven sets of criteria that guarantee the highest level of product quality and reliability.

Secure.

The safety of your data and network is our priority. That is why our business products come with multi-level security solutions that protect your information and grow with your company.

Reliability Promise

Challenge Acer products for reliability

Our products are designed to last and withstand the wear and tear of everyday use. We have such confidence in the quality of our products that we offer the Acer Reliability Promise on our business range.

In the unlikely event a product fails and is repaired under warranty within the first year of purchase, we will refund 100% of the price paid.

How do we ensure the quality of our products?

Rigorous testing. Our products are put through comprehensive testing that covers temperature, noise, vibration, shock, drop spill and humidity. This is how we make sure the products we deliver are faultless.

Compliance with green standards. We take pride in developing products that are environmentally friendly, so that they save energy and help to reduce costs.

Latest technology. We employ cutting-edge technology, ensuring our products have a longer life-cycle and reduced cost of ownership.

We place special emphasis on ensuring that our products meet the highest environmental standards. From developing technologies aimed at decreasing energy consumption and climate-change factors to the use of hazard-free materials and optimized supply chain management techniques, we ensure our products are safe for both users and the planet.

For more details, please read the complete Terms & Conditions at promise.acer.com

Get a full price refund if the product fails within the first year.

The Acer Reliability Promise applies to select products in the TravelMate, Aspire, Veriton, Switch and Iconia ranges, as well as select Monitors and Projectors.

Acer Notebooks

Solid reliability

Acer notebooks are designed to meet the productivity needs of the modern professional.

Built with best-in-class components, TravelMate notebooks deliver rock-solid performance, excellent security, and key communication and manageability features both in the office and on-the-go.

Extensa notebooks combine proven technologies to provide optimal performance and usability.

Acer for Business
ACER NOTEBOOKS

With almost 30 years of experience in the world of mobile computing, we listen to customers' needs and know that notebooks are tools professionals need to do their work.

That is why we endeavour to develop simple to use, powerful, secure and reliable devices that allow maximum efficiency, so that users can focus on their business.

TravelMate P6 series

The rock-solid enterprise notebook

Secure and durable, the **TravelMate P6 series** enables professionals to run heavy computing tasks even when they are away from the office. Corporate users can count on excellent performance, top security and seamless connectivity to work faster and focus on business projects.

- 6th generation Intel® Core™ processors
- Robust manageability and security
- Support for up to three independent displays
- Crystal clear communications
- Carbon fibre chassis

TravelMate P4 series

Full productivity and solid security

Designed to boost mobile productivity while keeping data protected from threats and accidents, the **TravelMate P4 series** is well suited for users looking for good performance, optimal user experience and a longer product lifecycle.

- Smart productivity
- Latest generation processor to drive better performance
- Ultimate reliability and multi-level security
- Eco-friendly design

TravelMate P2 series

Fast, efficient and reliable computing

The secure and efficient **TravelMate P2 series** notebooks are designed to ensure maximum productivity both in the office and on the road. With screen sizes ranging from 13-inch to 17.3-inch, these notebooks are suitable for varied uses and industries, allowing users the freedom to work comfortably anywhere.

- Smart performance
- Carefree security
- Professional design
- Reliable and eco-friendly

Extensa

Proven technologies for efficient productivity

Optimized to provide exceptional portability, productivity and efficiency, the 15.6-inch Extensa 2520 notebook delivers time-tested technologies that SMB customers need to power their business. With the slimmest form factor in its segment and extended battery life, it delivers quiet and comfortable mobility.

- Precision Touchpad (PTP)
- Slim design for excellent portability
- Comfortable typing experience
- Certified for Skype for Business

TravelMate B117

Work smart. Look smart.

The sleek and stylish 11-inch TravelMate B117 notebook takes mobility to the next level. Perfect for users on the move, the TravelMate B117 is compact and light, fits effortlessly into a briefcase or backpack and offers extended battery life.

- Eye-catching FlowCurve design
- Whisper quiet fan-less chassis
- Up to 10 hours of battery life
- Intuitive HD multi-touch display
- Full-size keyboard and Precision Touchpad

ACCESSORIES

Acer offers a broad assortment of accessories to help professionals get the most out of the TravelMate series:

- Additional power supply
- Docking stations
- Additional battery
- Options Pack
- Choice of carry cases
(Acer Advantage warranty + Bag + Mouse)
- Wireless mouse
- Port Replicators

Acer Desktops

Secure, powerful productivity

Reliability, security, ease-of-use and the superior productivity offered by a wide range of powerful, energy-efficient processors make Acer's desktops the ideal instruments to grow and manage businesses successfully.

Acer for Business
ACER DESKTOPS

Veriton desktops come in a wide range of form factors and in various configurations to suit all types of businesses.

The 6 series configurations, with form factors ranging from 1 to 30 litres, are optimized for enterprises and corporate customers. Along with advanced security and manageability tools, they offer cutting-edge technologies and premium features to tackle any task.

The 4 series configurations with mid-range desktop chipsets, TPM and high-quality graphics are optimized for SMBs. Available with form factors ranging from 1 to 30 litres, their advanced technologies help to maximise user potential.

The 2 series configurations with their cost-efficient professional chipsets are the perfect solution for small office environments. They come in form factors ranging from 1 to 30 litres and deliver excellent multitasking performance to optimize user productivity.

6 series 4 series 2 series

Veriton Z series

All-in-One convenience

The Veriton Z series is the all-in-one solution where space-saving design, optimal performance and top flexibility meet comprehensive security and management solutions to help you efficiently handle any task.

- Up to 180° adjustable Full HD webcam
- Multiple stand options and ergonomic design
- Comprehensive monitoring and management
- Valuable security features
- 23.8/21.5-inch panel display with optional 10-point multi-touch screen

4 series

Extensa EM series

Essential computing for efficient work

Perfect for satisfying basic business needs, Extensa EM desktops offer SMB and small business users the simplified system management, reduced power consumption, and productivity they need to power their business.

- Efficient multitasking performance
- Vital manageability and security features
- Green technology
- Latest processors and HD graphics

Extensa EX series

Handy manageability and green compliance

In a space-saving 10-litre format, the Extensa EX series packs all the features users need to deal with common business tasks. Furthermore, it provides management solutions which enable users to fully control their PC.

- Perfect for handling everyday tasks
- Easy to manage with Acer ControlCenter
- Plenty of storage space with up to 2 TB HDD
- Compliant with green standards and regulations

Chromebase CA241

Chrome experience on a bigger level

Introducing the world's first 23.8" Chrome AIO: Acer Chromebase CA241. With 23.8" Full HD display, four mics and two speakers, you enjoy high quality communication. Moreover, it's easy to turn the Chromebase into a Kiosk device or digital signage.

- 23.8" Full HD 1920 x 1080 IPS display
- FHD webcam with up to 30° adjustment
- 4 microphones and 2 stereo speakers
- Tilttable screen angles from -5° to 30°

Chromebox CX12

Speed and security redefined

Chromebox CX12 is simple to use, boots in a flash and brings users fast and secure Chrome OS, always-synched data, and easy management, so that it can be deployed across entire organizations within minutes. It can also be used as a media player in digital signage solutions.

- Easy to manage and scale deployment
- Automatic Chrome OS and App updates
- Lightning fast 8-second boot up
- Professional quality security and virus protection

Chromebox CXV2

Master in communications

Chromebox for meetings comes with a complete audio/visual set for the best videoconference experience. Enjoy meetings with up to 15 participants, share screens, collaborate on documents or even directly type text messages.

- Ease-of-use and up-to-date Chrome OS
- Fast boot up in 8 seconds
- Dual-band wireless LAN and Gigabit Ethernet
- Built-in Google virus protection and TPM

Acer Tablets and 2-in-1 devices

- Full HD display with IPS and Zero Air Gap technology
- Wireless display and HDMI port for sharing
- Corning® Gorilla® Glass 4 for strength and toughness
- Dolby® stereo technology

Security, manageability and productivity

Most Acer business notebooks and desktops are equipped with a suite of security and management tools designed to protect your network and data; to simplify routine tasks, and to monitor system performance, so that users can focus on growing their productivity.

Multi-level security solutions

Acer ProShield acts as a portal where users can easily manage their credentials and create extra layers of protection to keep devices invulnerable. Users can encrypt their sensitive files and data, or keep confidential information in a Personal Secure Drive that can only be accessed with a password of their choice. When Acer Proshield Software Security solution is combined with TPM (Trusted Platform Module) hardware security, the highest security level is achieved.

- Data Protection (Personal Secure Drive and Data Encryption / Decryption)
- Data Removal (File Shredder)
- Credential Manager (Password / TPM Configurations and Website single sign in)

Easy and efficient IT management

Acer is committed to designing devices that are easy to use, manage and deploy across a broad product portfolio. Preloaded across Acer commercial notebooks and desktops, Acer Office Manager allows small and medium businesses to easily deploy security policies, monitor IT assets and schedule maintenance tasks without dedicated IT personnel and equipment.

- Policy Enforcement
- Software Deployment (Software, System BIOS and Hotfix)
- Management (Client Management and Task Scheduler)
- Reporting (Client Configuration Reports - Serial Number, MAC, UUID, SBIOS, etc..)

Everything under control

Acer ControlCenter is a comprehensive solution for personal computer management. Here users can easily find the latest system information and check if updates are available. The system health indicator promptly alerts in cases of component failure, preventing damage. Acer ControlCenter also includes Software Assembler, which enables users to install/uninstall software, and a direct link to Acer Office Manager. Acer ControlCenter makes it easier to manage your PC; in addition, any problem can be detected and fixed promptly, so that the system stays healthy and downtime can be avoided.

- My System Information
- Tune Up, Updates and Support
- Acer Office Manager Agent
- Software Assembler
- Health Monitor
- Recovery Management

Acer ControlCenter

Acer Smartphone

Built around users' needs

Smartphones are now critical for most businesses. No matter how diverse businesses are, they all look for performance, security and reliability. Our Windows-based smartphone, with its large display, excellent performance and built-in security, ticks all the boxes, making it an extremely effective business tool.

Liquid Jade Primo

Boosted multitasking

Running Windows 10 Mobile, the **Liquid Jade Primo** enables users to enjoy serious productivity through Continuum and Windows universal apps. What's more, it provides the powerful performance needed for seamless multitasking and allows for full encryption of all user data as well as device management solutions, making it perfect for corporate users.

- PC-like experience with Windows 10 ecosystem
- Sleek profile with tough Corning® Gorilla® Glass screen
- 5.5-inch Full HD AMOLED touch display
- Superior multitasking
- Enterprise-level security

A truly exceptional display

Protected by ultra-tough Gorilla Glass, the 5.5" Full HD screen features AMOLED and Zero Air Gap technologies to deliver vivid colours and crystal-clear visual experiences.

Multitask on two screens

A powerful 64-bit hexa-core processor and 3GB of RAM work with Continuum features to deliver laptop-like productivity. Seamlessly create and edit MS Office documents on your phone. Show a presentation on a big screen using your phone, while working on the phone's screen.

Superior cooling

Powerful computing requires powerful cooling to prevent overheating. That's why the Jade Primo features an advanced cooling system that dissipates heat much more effectively than standard technologies.

Acer Monitors

Comfortable, eco-friendly performance

Acer professional monitors combine best-in-class performance with solid, ergonomic designs that enhance viewing comfort over prolonged periods and in any environment. Improved control utilities and diverse input options that easily connect with modern digital sources render the user experience smooth and flawless.

Premium resolution

Acer's professional monitor range includes a selection of high resolution models that deliver perfect image and colour performance. WQHD (2560x1440) panels feature 4 times the resolution of standard HD (720p), and allow 77% more content to be viewed than on an FHD screen. With four times the resolution of FHD (1080p) and displaying 300% more content, the UHD (3840x2160) resolution is even more extreme.

Stunning colours

Acer ColorPlus is a set of technologies that enables optimized colour output for design professionals. Built-in 100% sRGB colour correction technology delivers high colour accuracy and colour space reproduction. A low Delta E value ensures colours are accurate and consistent. In addition, 6-axis colour independent adjustment permits precise colour and saturation control for customized settings. Moreover, super sharpness technology optimizes images from a lower resolution.

Eco-friendly performance

Acer monitors are mercury-free and use PCR (postconsumer recycled) ABS plastic, plus reusable packaging materials. Acer monitors meet ENERGY STAR® specifications, are RoHS and TCO Certified, and have earned the respected EPEAT® Gold environmental rating. The **Acer B6 series** monitors can be switched off to save energy thanks to a physical power button, and integrate smart power management features that reduce the cost of ownership.

Full digital connectivity

Acer displays provide multiple connectivity options, including USB 3.0, DisplayPort, HDMI and traditional DVI/VGA. And if one monitor is not enough, multi-display configurations or a video-wall can be set up with the Daisy Chain function.

Ergonomic design

From CAD users to financial analysts, everyone can find the model that fits their viewing demands in our range of stylish and ergonomics monitors. Designed for professionals that spend significant amounts of time in front of a computer, they offer flexible and easy height, tilt, and pivot adjustments to enhance comfort over prolonged use. Our monitors also incorporate Acer EyeProtect, a suite of features that takes into consideration prolonged usage by heavy users such as programmers, writers, and graphic designers and are designed to reduce eye-strain and provide a more comfortable viewing experience.

Monitors DV & DT series

High-impact communication

DV and DT large format displays help to deliver eye-catching messages and grab people's attention. Used either alone or in a video wall setup, the DV and DT series present brilliant and vibrant images to maximize the effect of advertising or to share information. With sizes ranging from 42-inch to 65-inch, these digital signage displays can help create valuable and flexible communication.

- Eye-catching, razor-sharp images thanks to 1080p Full HD resolution
- Landscape or portrait mode to suit different content and scenarios
- Seamless video wall set up for greater effect
- Reliable solution to sustain 24/7 operation
- Full range of Input/Output interfaces
- Built-in speakers and remote control

Multi-Screen Video Wall configuration

Monitors B6 High-res series

Extreme resolution

B6 high resolution monitors combine professional style with ergonomic design to suit all environments and viewing demands. Optimized to meet the needs of even the most demanding user, these monitors offer extraordinary visuals, extreme resolution and exceptional ergonomics.

- 5 large form factors: 27-inch, 28-inch, 29-inch, 32-inch and 34-inch
- Extreme resolution, from WQHD (2560 x 1440) to Ultra HD (4K2K)
- Ultra-wide aspect ratio (depending on model) for superior multitasking
- 178° Wide Viewing Angle
- Supports landscape and portrait modes
- Advanced colour technologies for superior image quality

Monitors B6 series

Robust ergonomics, stunning colours

Specifically conceived for intensive daily use, B6 monitors give productivity a boost thanks to sharp images, comfort-conscious design and energy saving features.

- Modern ergonomic design: height, pivot (depending on model), tilt and swivel adjustment
- Rich colour palette
- Full digital connectivity
- Image enhancement technologies

Monitors V6 series Modern design, vibrant visuals

Perfect for home or office professionals, V6 monitors deliver outstanding image quality and high-end connectivity. Vibrant visuals and comfortable viewing are ideal for users that need an efficient, reliable display with great value for their money.

- Professional, modern style
- Reliable display
- 4:3, 16:9 and 16:10 aspect ratios
- Full digital connectivity
- TN/VA/IPS technology options
- Wall mountable

Monitors KA0 series Comfortable viewing experience

The KA0 series is optimised for a comfortable viewing experience. The display is easy on the eyes with low response times and special technology to reduce glare and harsh blue light. Easy adjustments and a wide viewing angle help you find the perfect position.

- Great visuals with Full HD display
- Optimised comfort with eye-protecting technologies
- Convenient tilt adjustments
- Smart design with conveniently located buttons

Monitors S7 series Elegance in Ultra HD

Elegant and stylish, the borderless 27-inch S7 monitor is engineered with both design and performance in mind. A truly premium product, the S7 monitor allows users to complete sophisticated tasks efficiently and immerses them in a crystal-clear Ultra HD visual experience.

- Metallic asymmetric stand and Zero Frame Design
- 4K2K Ultra HD (3840x2160) resolution for premium image quality
- IPS technology, supporting a 178° wide viewing angle
- Full digital connectivity
- Marvellous surround sound and Acer TrueHarmony
- Acer EyeProtect and ColorPlus set of technologies

Monitors BX0 series Ultimate viewing experience

Large and ultra-wide, BX0 series helps to boost work productivity by letting users display multiple documents side by side, while advanced features, such as Adaptive-Sync technology, provide a superior viewing experience.

- Extreme resolution up to 4K UHD (3840x2160)
- IPS panel with 100% sRGB colour gamut
- Adaptive-Sync technology
- High-speed connections

Acer Projectors

Brilliant visuals

Acer projectors make any content shine and any presentation persuasive, thanks to exceptional brightness, high contrast ratios and colour enhancing technologies that make images pop out of the screen. What's more, with flexible installation options and convenient utilities, Acer's projectors are easy to set up in any venue.

Acer LumiSense+

LumiSense+ is Acer's world leading technology for image adjustment that delivers an extraordinary viewing experience. An embedded light sensor picks up ambient light conditions, then LumiSense+ engine dynamically optimises images colour and saturation. In addition, LumiSense+ provides image optimization based on content analysis. As a result, projections are always clear and rich in detail.

Acer ColorBoost 3D Technology

Featuring an optimised 6-segment colour-wheel design, advanced lamp illumination and powerful image processing, ColorBoost 3D technology improves colour performance and delivers true-to-life images. ColorBoost 3D also compensates colour saturation and temperature and reduces brightness decay and colour shift when displaying 3D content.

Acer Projectors Wireless Solution

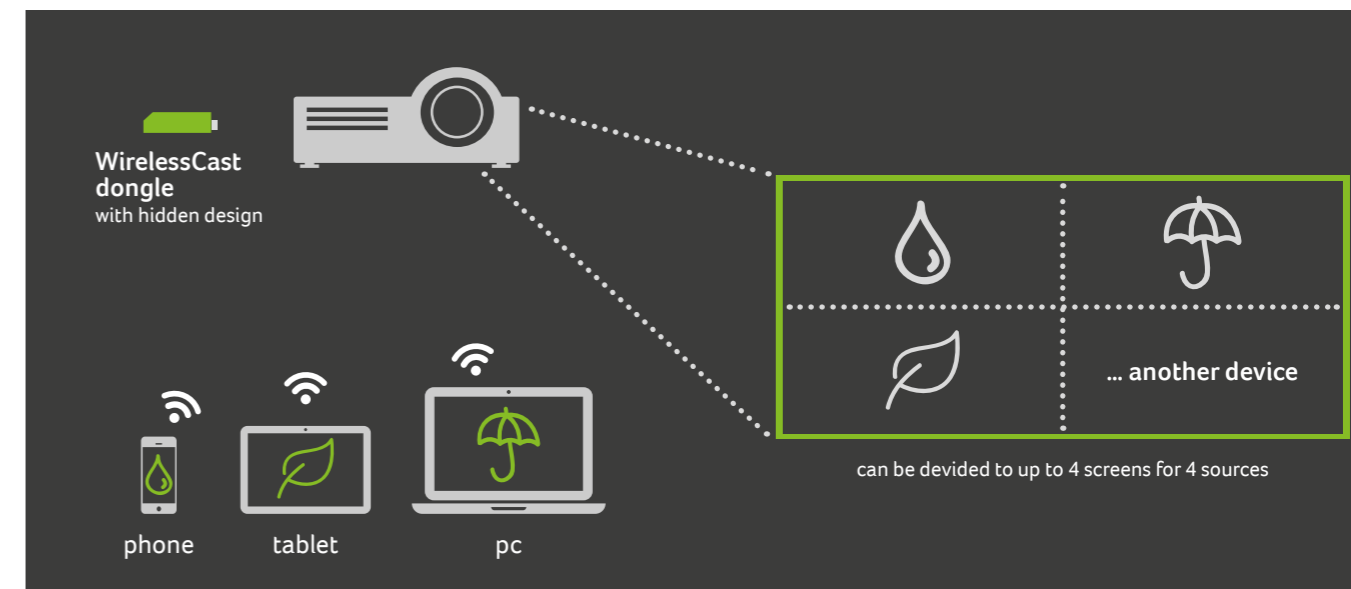

Wireless projection frees users from the limitations of cables and makes sharing easier. Available on select models via Acer wireless adapters and eDisplayPro app, it allows users to stream documents, videos, and photos from their mobile devices. Additionally, Acer eDisplayPro allows up to four users to display their content on screen at the same time.

Acer ColorSafe II Technology

Acer projectors featuring ColorSafe II are virtually immune to colour decay. This means they preserve colour fidelity even after prolonged use, preventing problematic shades of green or yellow.

TCO Certified Development

Selected Acer projector models are TCO certified, guaranteeing high image quality and top performance in a design that meets the highest usability and environmental standards.

Projector P6 series Premium projector experience

The P6 projector series, our premium projector that delivers unrivalled visual quality in any environment, maximizes the impact of projections and presentations. Thanks to LumiSense+ technology for image adjustment, vertical lens shift and multiple input/output interfaces these projectors are also incredibly versatile.

- HDBT (HD base T) on P6600
- Hidden dongle design (for versatile wireless display options)
- Support for Crestron Network Control
- 4-Corner Keystone Correction
- Top-Loading Lamp Design
- Auto Shutdown

Projector F7 series Ultimate flexibility

Acer F7 projector series, available with five interchangeable lenses enabling multiple throw distances, adapts to any environment and sets users free from any installation constraint. Excellent colour quality, superb clarity and high brightness make for captivating projections.

- Five interchangeable lenses, ultra-short throw, short throw, standard throw, long throw, and ultra-long throw
- Flexible installation and operation
- High brightness and contrast ratio
- XGA/Full HD/WUXGA resolution for precise projection
- Versatile connectivity
- Support for LAN and Crestron Network Control

Projector P1 series Sharp visuals, compelling value

The reliable Acer P1 projector series provides SMB users with brilliantly sharp visuals and a wide range of connectivity options at excellent value.

- SVGA, XGA, WXGA, FHD or WUXGA resolution
- Up to 4000 ANSI lumen brightness and up to 20,000:1 contrast ratio with Dynamic Black technology
- Instant resume
- Wireless projection on selected models with optional Acer Wireless Dongles
- Hidden dongle design (depending on the model)
- Versatile connectivity
- USB plug and play functionality on selected models

Projector A1 series Vibrant projections

With up to 1080p resolution, high brightness, high contrast and Acer's colour enhancing technologies, A1 projector series makes any projection more compelling, with sharper texts and more vibrant images. Plus, it conforms to the sRGB standard for colour consistency across devices.

- LumiSense+ for crystal clear images in any kind of light condition
- Hidden dongle design to maintain the stylish look
- 3200 lumen brightness and up to 20,000:1 contrast ratio
- Up to 10,000 hours lamp life

Specifications vary depending on the model.

Acer Solutions

Reach out to your public

Digital signage is an extremely flexible and effective solution for helping businesses deliver the right message at the right time. Taking advantage of cutting-edge technologies, digital signage can be used to present different kinds of messages and represents a cost-effective solution compared to printing posters, flyers and other paper-based materials.

Simple solutions

We place a great deal of value on providing our customers and retail partners with a wide range of products and technologies that are designed to work together seamlessly and enable them to reach their goals as efficiently as possible.

Our easy to use 3-step solution includes:

- 1 Acer's Large Format Displays: designed for 24/7 operation and high visual impact, they deliver unbeatable quality and rich colours to engage with customers in public spaces.
- 2 Acer's media players - Veriton N and Chromebox CX - for reliable content playback.
- 3 Third party software for media content playback and management.

Bespoke solutions

Businesses and institutions of all kinds and sizes can reap the benefits of digital signage. Really effective and easy to set up, the digital signage solution provides an immersive 24/7 viewing experience.

We can help companies to move from a static to a digital signage system, making the transition smoother by providing comprehensive and easy to use solutions to help them interact with customers, creating dynamic, interactive ways to convey their message. What's more, we can work with companies to create tailor-made solutions designed to meet specific requirements.

Where can digital signage be used?

Thanks to its extreme flexibility, digital signage has a wide range of applications and uses across multiple vertical markets. It can deliver captivating messages and grab people's attention, even in visually cluttered environments.

Retail/Restaurant

Special offers, news, promotions, floor information in malls, stores or restaurants

Transportation

Timetables, messages at boarding gates and check-in counters in airports and stations

School/Hospital/Hotel/Office

Diversified information to be placed at the entrance, at the front desk in lobbies or in elevators

Entertainment

More colourful, instant content to attract audiences' attention in bars, cinemas, pubs, casinos, etc.

Acer for Education

Explore. Learn. Share.

With 40 years of experience in developing innovative and easy-to-use tools, Acer is well-suited to meeting the needs of modern educational institutions. At Acer, we believe that the most valuable part of computing lies in the power to spread knowledge, and we see it as our responsibility to provide today's generation with the instruments they need to succeed in tomorrow's world.

The goal of Acer for Education is to enable teachers and students to create new ways of interacting by providing reliable and easy-to-use solutions they can trust. By developing innovative technology for the classroom, we help students explore beyond limits and gain access to new paths of communication and collaboration.

Why Acer for Education?

At Acer, we are dedicated to serving the needs of the education market and to furthering knowledge through technology and we can rely on four decades of experience in the computing sector.

Our full line of products supports the learning process at every step, enabling the exploration of all subjects, in any situation and beyond classroom walls. Our products are intuitive and designed to make learning fun and engaging.

We believe exploration through technology is a right, not a privilege. This is why we make affordable products that are reliable and robust, resulting in lower Total Cost of Ownership.

Our indirect channel model allows us to work with experts in the education market - Acer Education Reseller Partners. Effective channel programs promote great cooperation, enabling us to deliver solutions that perfectly suit market needs.

We guarantee reliable customer service and support. This means that education institutions do not have to worry about technical issues disrupting the learning process.

Together with our ecosystem partners, we invest in the future of education to provide a better tomorrow for the next generation.

The priority of education is to help students to become independent and creative thinkers by providing them with the resources they need to succeed on this journey. In this panorama, technology serves as an enabler: a tool that helps to open up new possibilities and create engaging learning opportunities.

Professional Service

Customer Service & Support

When customers buy an Acer product, they receive more than just a device to work with. They receive access to an integrated structure of logistics, contact centres and repair centres owned by the Acer Group that guarantees a perfect synchronization of the service chain.

The Acer Service Network is organized to operate quickly and efficiently, offering customers flexibility while adhering to common criteria throughout the EMEA region.

Extended Service Plan

In addition to the standard warranty*, Acer offers an extended service plan on our entire product range that can be purchased for Commercial Notebooks, Tablets, Desktops, All-In-Ones, Monitors and Projectors, providing a priority service. Additionally, it offers customers priority via telephone, fax and e-mail during the entire duration of the extension.

Extended service plans may be customized depending on the product and extension selected:

-  **Time**
Depending on the product and country, customers may extend the warranty up to 5 years.
-  **Territory**
The International Travelers Warranty (ITW) is designed to add protection and complete peace of mind to customers travelling abroad. It covers Acer notebooks and tablets. Valid for one year from the date of purchase with the possibility of an extension, it does not apply in the country of purchase.
-  **Service**
Customers may select from different repair options: Carry in, Pick-up and return, On-site, and Exchange.
-  **Extra support**
Customers may choose Accidental Damage Insurance as well as Data Recovery service.

Outstanding service

We care about our end customers and offer our partners and customers an outstanding service, including technical support, collect and return service.

Our commitment has been acknowledged and rewarded with several awards all across Europe.
