Lenovo ThinkCentre M70a

**Introducing the ThinkCentre M70a.
A Desktop You Define.**

The ThinkCentre M70a is the culmination of 27 years of innovation: a smarter, sleeker, and more secure desktop that anticipates the needs of the modern workforce to power a smarter future.

Its elegant, modern industrial design and ergonomic AIO composition maximize users' workspace efficiency wherever, whenever, and however they work. And the M70a's integrated ThinkShield security offers customizable solutions that prevent should surfing, giving users invaluable protection and peace of mind.

The M70a is an exemplary achievement for our company, and a testament to why cutting-edge companies such as Microsoft, Google, and Ducati work smarter with Lenovo's secure technology solutions.

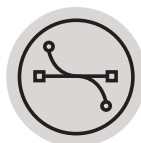

Lenovo ThinkCentre M70a

Attributes and Benefits

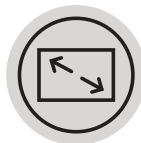

Trusted Security and Durability

Security is paramount. The M70a includes Lenovo's customizable ThinkShield security solution for comprehensive, end-to-end protection of critical data and business technology. ThinkShield features such as Smart Display blur the screen when users look away to prevent shoulder surfing. It also boasts 10 Mil Spec compliance for guaranteed product durability and platform stability to endure the most extreme situations.

Purposeful Design

Cleanliness and comfort clear the mind. The M70s' new stand supports neat cable management with integrated cable routing, cable guide and cable cover to keep workspaces uncluttered. An alternate stand with a wider adjustable angle display - but without cable management - is recommended for the AIO with touch function. Both options include a keyboard and phone garage for devices, so desks stay clean and brainpower is spent on work, not looking for phones.

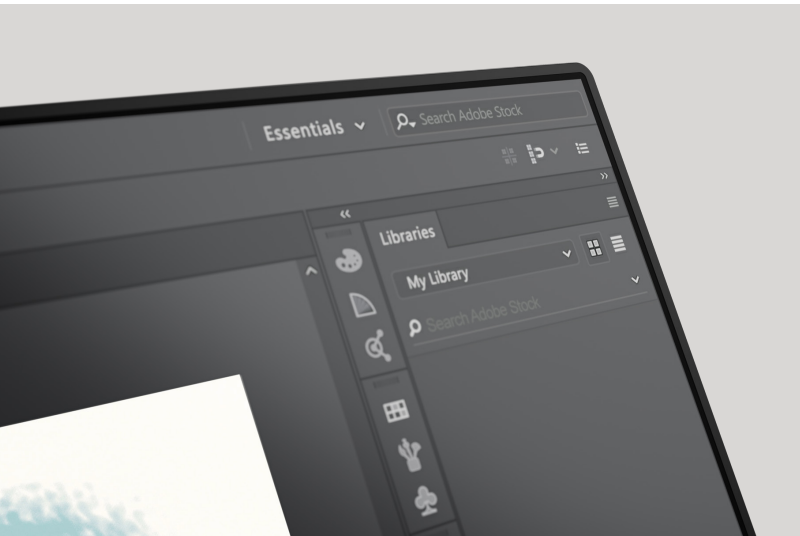

Customer Valued Innovation

The M70a enables users to work smarter, not harder. Improved readability, a larger screen to body ratio, and premium audio with Dolby Atmos® produce an immersive workspace to boost productivity. Even when users take a break, modern standby is working to keep the system up-to-date whenever a suitable network is available.

A Desktop You Define

Desktops shouldn't define users' workspaces, they should power productivity. An ergonomic eye-level display, full-sized keyboard, and mouse create a comfortable computing experience, while up to 10th Generation Intel® Core™ i9 Processors boost performance. With easy upgrades and repairs, it's an easily maintained, budget friendly solution for users.

Lenovo ThinkCentre M70a

Performance

PROCESSOR

Up to Intel® 10th Gen Core™ i9

OS

Windows 10

MEMORY

4 to 32GB DDR4-2666

STORAGE

SSD: 128GB, 256GB, 512GB, 1 TB. 2.5" HDD: from 512GB, 1TB, 2TB

Accessories

LENOVO PROFESSIONAL WIRELESS KEYBOARD AND MOUSE COMBO

PN: 4X30H56796

The slim 3-zone keyboard with number pad features responsive, quiet keys for a premium typing experience. The one-touch dedicated media keys put the controls you use most at your fingertips. The ergonomic full-size mouse provides comfort and support for all-day use.

LENOVO FINGERPRINT BIOMETRIC USB MOUSE

PN: 4Y50Q64661

The Lenovo Fingerprint Biometric USB Mouse offers enhanced input functionality with an integrated fingerprint sensor for password-free authentication. It features a 1600dpi resolution with an optical sensor for precise tracking and an ambidextrous design for more fluid control and ergonomics.

LENOVO PROFESSIONAL WIRED STEREO VOIP HEADSET

PN: 4XD0592991

The Universal VOIP optimized headset provides premium sound quality, turning any room into a conference room with noise canceling and in-line control features.

MICROSAVER 2.0 CABLE LOCK

PN: 4XE0N80914

Representing the next generation of device security, the MicroSaver 2.0 was developed using strict specifications, patented technologies, and rigorous testing against tough environmental conditions, and can stand the test of time in a smaller, compact size without compromise.
