

### **SENNHEISER SP 10**

Sennheiser SP 10 is a compact, portable speakerphone designed for Unified Communications business professionals to make personal and small group conferences on PC/softphone. Created for business professionals who need flexible conferencing solutions and who demand exceptional design, excellent conference sound and user-friendly functionality.

With Sennheiser sound quality, voice clarity and a dedicated music function, the Sennheiser SP 10 represents Sennheiser's sound heritage and design at its best and makes a bold statement of style and quality on any desk.

#### Quality design

designed to be seen and heard
 With its iconic design, Sennheiser SP 10's lightweight slim profile makes it the ideal working tool for the quality conscious
 UC business professional. Requiring a minimum of desk space, its streamlined styling, discrete control panel and superb

#### Sound leadership

- superb conference sound

finish signal high-end quality.

With Sennheiser voice clarity and HD sound, conference calls have never been

clearer. A dual talk feature allows users to converse naturally and interrupt conversations, while echo canceling removes sound reflections for an optimal communication experience.

Designed with the professional UC user in mind, Sennheiser SP 10 ensures an outstanding communication experience for listeners and users alike. The superior audio performance of the speakerphone enhances efficiency and the quality of collaboration in and between organizations. In addition, the speakerphone features a dedicated music setting for relaxing with music between calls.

User focus – quick to connect, simple to use Literally in play and talk: Sennheiser SP 10 uses a USB cable to connect directly to your PC to provide secure, hands-free communication. Just connect the device and you are ready to communicate. Additional features include intuitive fingertip controls, easy cable management, multimedia setting and a protective carrying pouch.
