YOU'RE ON

JABRA EVOLVE
FOR BETTER CONCENTRATION, FOR BETTER CONVERSATION

The Jabra Evolve series is a professional range of headsets designed to improve concentration and conversations. Premium noise cancellation technology gives you peace to work in a noisy, open office; effectively creating a concentration zone around you so you can stay focused.

STAY FOCUSED, BY ELIMINATING DISTRACTIONS IN NOISY OPEN OFFICE ENVIRONMENTS

The Jabra Evolve series helps you create your own concentration zone with premium active and passive noise cancellation technology – so that you, and not noisy disturbances, are in control. Get further protection from interruptions with the busy light that signals whether or not you are available to colleagues.

MADE FOR BOTH MUSIC AND VOICE

With a world-class set of microphone and speakers that are truly made for both voice communication and music listening, you are free to choose if you want to be in your own concentration zone or actively participate in voice-based collaboration.

LET YOURSELF, NOT THE TASK, DECIDE WHERE YOU WORK

Use your headset where you want. Connect easily to your PC via the USB-based control unit or to your smartphone and tablet via the 3.5 mm jack. Additionally you can easily turn your office headset into a very stylish personal headset when you're on the go by seamlessly integrating the microphone boom arm into the headband.

Jabra Evolve is available in different models. Choose the one that best fits your needs for concentration and collaboration.

JABRA EVOLVE KEY PRODUCT BENEFITS

Made for voice and music

World-class speakers made for your voice and your music
Truly made for both voice and music with world-class microphone and speakers so you are free to choose if you want to be in your own concentration zone or actively participate in voice-based collaboration.

Passive noise cancellation

Protects you against high-frequency noise
Passive noise cancellation gives you protection from high-frequency noise such as human voices just by wearing the headset due to specially designed speaker cushions.

Easy call management

Intuitive in-line controller for greater call control
Jabra headsets with in-line call controller give end users greater productivity and convenience, with large buttons and LED indicators for quick access. Pick up or end calls, control volume or mute, or simply mute the line. Plus, all buttons are user programmable.
**Jabra Evolve 65: the controller is located on the ear cup.*

VARIANT DEPENDENT

Busy light (Jabra Evolve 40/65/80)

Avoid call interruptions with the busy light indicator
The Jabra busy light helps you to cope with the challenges of an open office environment and lets people clearly know that you are on the phone. The indicator turns red when you are on a call and prevents you from being interrupted.

Discreet boom arm (Jabra Evolve 40/65/80)

Turn your office headset into a personal headset
The discreet boom arm can be seamlessly integrated into the headband when not on a call or when on the go – so you can easily turn your office headset into a personal headset.

Works with all mobile devices (EVOLVE 40 and 80)

Easy connectivity to your favourite personal smart device
The 3.5 mm jack gives you total flexibility to connect your corded headset to a PC, smartphone, tablet or favourite personal communication device.

Active noise cancellation (Jabra Evolve 80)

Protects you against low-frequency noise
Active noise cancellation eliminates unwanted low-frequency background noise in an office environment such as air conditioning or PCs at the touch of a button, giving you the peace you need to work and effectively creating a concentration zone around you so you can stay focused.

Listen in (Jabra Evolve 80)

Turn your surroundings on and off
Listen-in function allows you to clearly hear your surroundings while wearing the headset at the touch of a button; deactivate the listen-in feature and you can maximise your concentration zone.

30 metre/100 feet wireless freedom (Jabra Evolve 65)

Handsfree communication up to 30 metres/100 feet
Featuring Bluetooth® Class 1.5, your Jabra device enables you to connect to a vast range of devices from smartphones and tablets to laptop computers. You get a wireless mobility of up to 30 metres/100 feet, giving you full control of your handsfree Jabra voice solutions. You can call and multitask on your terms.

Tap-to-connect (Jabra Evolve 65)

Connects devices with a simple touch
Near Field Communication technology (NFC) makes it easy for your Jabra device to instantly connect and interact with phones, tablets, and interactive tags. It requires no more than a simple touch. Just tap the phone and the Jabra device together and you are ready to talk or stream your music.
