Revolutionary dual-screen design in a gaming powerhouse

You've never seen a laptop like this. Sleek, powerful, and equipped with two displays for twice the advantage, the future of portable gaming starts here. Dual-screen design lets you game at fullscreen while keeping tabs on other applications on a second, keyboard-mounted display. No matter where the game takes you, this beast of a machine is designed to multiply your potential.

Revolutionary dual-screen design

Reap the benefits of a dual-monitor setup from anywhere with an industry-first 15.18 cm (5.98") 1080p touchscreen mounted above the keyboard. This second screen lets you display and interact with other applications like Twitch, Discord, Spotify, OMEN Command Center, and more – without interrupting gameplay.

Max settings. Any setting.

When it comes to raw power and performance, the OMEN X 15 Laptop makes no compromises. With a 9th generation Intel® Core™ processor and NVIDIA® GeForce® graphics, feel free to crank up the settings everywhere you go.

Edge-to-edge immersion

Crisp gameplay is crucial if you want to play at your best. With a high resolution and fast refresh rate¹, on-screen visuals are swift and smooth, while a micro-edge bezel display delivers edge-to-edge immersion.

Ultra-thin, performance-driven design

Experience a sleek, ultra-thin design engineered with performance and customization at the forefront. With an advanced thermal cooling solution, RGB lighting across the chassis and keyboard, and single-panel access to internals for easy upgradeability, nothing stops you from playing at your best.
