

AG241QG

23.8

(60.5) LCD MONITOR

The new premium line of AOC gaming monitors is here: the AGON series. With the AOC AGON AG241QG you can enjoy clear and detailed graphics thanks to its Quad HD resolution (2560x1440), plus sharper action sequences with a 1ms response time and 165Hz refresh rate. The AG241QG also supports NVIDIA G-Sync technology to eliminate tearing, stuttering and input lag.

165Hz Refresh Rate

A 165Hz refresh rate, well over twice the industry standard of 60Hz, makes games run smooth as silk. Realize the potential in your graphics card. Forget screen tearing and forget motion blur. Feel your reflexes become one with the action. Never

look back.

G Sync

NVIDIA®G-SYNC™ display technology delivers the smoothest and most breathtaking gaming experience on offer. G-SYNC™ synchronizes the monitor's refresh rate to the GPU in your NVIDIA-powered PC, eliminating screen tearing and

minimizing display stutter and input lag. Scenes appear instantly, while objects look sharper and more vibrant.

1ms Response Time

A pixel response time of 1ms GTG means speed without the smear for an enhanced experience.

Fast-moving action and dramatic transitions will be rendered smoothly without the effects of ghosting.

QHD Resolution

With 2560 x 1440 resolution, Quad HD (QHD) offers superior picture quality and sharp imagery that reveals the finest details. The widescreen 16:9 aspect ratio provides plenty of space to spread out and work, plus allows you to enjoy games or

movies in their original size.

Lowblue Light

AOC Lowblue Light protects you from harmful blue light which, during long sessions, has been shown to cause eye strain, headaches, and sleeping disorders. Our Lowblue Light feature reduces the harmful wavelengths emitted without sacrificing color composition, setting the experience free from the worry of eye damage.

Screen Details

Color	Black Red
Resolution	2560x1440 PX
Refresh rate	165Hz
Response time	1
Panel	TN
Backlight	WLED
flickerfree	✓
