A display that looks – and feels – totally natural
The etched glass screen provides a distinct, tactile experience as you draw, mimicking the feel of a pen on paper while reducing unwanted glare and reflections.

The display offers realistic colour accuracy of up to 99% Adobe RGB coverage (CIE1931), plus, at 4K resolution, you can see every detail of your creation in pinpoint accuracy.
Wacom Pro Pen 2: natural and precise
Our state-of-the-art creative pen technology. 8,192 levels of pressure sensitivity and unparalleled tilt recognition means that every stroke, every move of your hand is followed with unerring accuracy.
