

MDP2DVID

Mini DisplayPort to DVI Dual-Link Converter

- USB Powered

Installation Guide

Packaging Contents

- 1 x MDP2DVID converter
- 1 x installation Guide

System Requirements

- Mini DisplayPort enabled video source (i.e. computer, laptop, etc)
- DVI-D enabled display device (i.e. monitor, projector, HDTV, etc)
- Available USB port on video source device

Installation

1. Make sure the video display device (i.e. monitor, projector, HDTV, etc) is turned off, before connecting to the adapter.
2. Connect a standard male/male DVI-D cable from the MDP2DVID adapter to the video display device. If using a screen resolution larger than 1920x1200, a dual-link DVI cable is required.
3. Turn on the video display device.
4. Connect the Mini DisplayPort and USB connectors on the MDP2DVID adapter to video source device (i.e. computer, laptop, etc). The computer can be on or off, as it should be able to automatically detect and configure for the MDP2DVID.
5. Once the external display is detected and configured, the video output should be visible on the display device. Some adjustments may be necessary from the video source device's output settings for optimal viewing.
