

Q2781PQ

27
(68.5) LCD MONITOR

With an ultra-slim profile and stylish metallic base, this 27-inch display brings modern design into your home or office. You'll enjoy accurate colours and an impressive picture quality thanks to the AH-IPS panel and the 1440p resolution, and the built-in DisplayPort and HDMI (x2) connectors make it a breeze to hook up your computer and other devices.

IPS

QHD Resolution

With 2560 x 1440 resolution, Quad HD (QHD) offers superior picture quality and sharp imagery that reveals the finest details. The widescreen 16:9 aspect ratio provides plenty of space to spread out and work, plus allows you to enjoy games or movies in their original size.

Frameless Design

For us, computer displays are more than just mere office tools. They can be true design statements on your desktop. With its ultra-slim profile, borderless display and unique asymmetrical stand, this monitor is a real eye-catcher. For a truly outstanding viewing experience from every angle.

Slim Design

Sometimes, less is more: With its minimalistic, slim profile, this monitor seamlessly blends into your working environment instead of obstructing your vision with a bulky casing. Enjoy more space on your desk, easy transportation and an appealing design with this slick, lightweight display.

IPS Panel

No matter if you are viewing photos, videos, a magazine layout in InDesign or playing your favourite game – we want your content to look excellent from whatever angle you are seeing it.

That is why this display comes with an advanced IPS panel, which produces brilliant colours and offers wide viewing angles. This way, images always look excellent and accurate, regardless from which angle you – or your friends and co-workers sitting or standing next to you – are looking at the screen.
